Re: CPGNo. 16-0042-NMP; Application of Orchard Road Solar I, LLC
Comments on Proposed Schedule as per PSB Order entered 3/16/2017

From: Elizabeth Cooper of Middletown Springs, Vermont, pro se party to the
Orchard Road Solar I proceedings enter comment on the proposed schedule.

I can be available for a site visit in Middletown Springs on April 6, 7 and 11, 13,
14.

Taking into consideration the confusing and delayed notification of the opening of
an investigation and clarification of the significant issues raised by intervenors
concerning aesthetics, historic sites, and orderly development along with the no
previous notice of a proposed schedule before the prehearing conference to
establish a schedule for the investigation, I request that the schedule for
investigation be reconsidered after an agreement is reached for a date for the
site visit. As the dates that I am available and when other neighbors can be
available are later than those proposed by the DPS and the Applicant and will
therefore not provide enough time for discovery deadlines and in turn will require
an extended timeline.

I appreciate your consideration.
