Subject: Orchard Rd. Solar Project 1, Middletown Springs

Dear Ms. Judith Whitney,

We are writing to formally request from the Public Service Board a two week extension for the GroSolar project on Orchard Road in Middletown Springs to allow us time to "comment" on the petition. We are concerned as we clearly view the proposed project area from our property, but were not included in Attachment D of either of the 45-Day notice documents as "Interested Persons and Entities entitled to Notice." It was only recently that we learned that there is a way to access digital documents to help us understand the project. Since the documents and folders are both numerous and technical, it will take time to sort through and digest them. Being prime summer vacation time, we are running into difficulty reaching people whose professional knowledge and expertise could be of assistance to us as we try to understand the environmental implications of the project. Lastly, as we intend to "formally intervene," the current time period makes it extremely difficult to retain legal counsel and prepare the necessary documents.

We appreciate your time and consideration of our request.

Sincerely,
Karen and Robert Galloway
