Re: **CPG #16-0042-NMP -- Application of Orchard Road Solar I, LLC**

Dear Ms. Whitney:

Orchard Road Solar I, LLC ("ORS") wishes to provide an update to the group net-metering arrangement for the above-referenced project. In the Application submitted on July 15, 2016, Applicant indicated that there were four meters that would be included in the net metering group, and that credits would be allocated according to the "stacking model," whereby ORS will instruct Green Mountain Power to allocate credits for the kilowatt hours of electricity generated by the Project each month to the meters in an order of priority until the monthly electricity usage, charges and fees for each meter are fully offset and satisfied.

ORS is changing the group arrangement slightly so that the following four meters will take the Project's output in order of priority until the monthly electricity usage, charges and fees for each meter are fully offset and satisfied, but not to exceed a total of 300,000 kWh per year allocated to the four meters combined:

Customer Meter Number	Location	Priority
E14981223	N. Montpelier Road, Plainfield, VT	1
E15264415	Greatwood Drive, Plainfield, VT	2
E14981224	N. Montpelier Road, Plainfield, VT	3
E14829727	N. Montpelier Road, Plainfield, VT	4

An additional customer, the Holiday Inn Burlington, customer meter number 49560100007, will then be allocated the remaining output (up to 600,000 kWh/year). No other changes to the group net metering information are being proposed at this time.

Please do not hesitate to contact us with any questions.

Sincerely,

Geoffrey H. Hand, Esq.  
Victoria M. Westgate, Esq.
