Building Committee News!

DAVID MUNYAK
EAST ST

The Study of the Town Green is nearly complete!!

Historic preservation architect Thomas Keefe has completed the text portion of the study and provided it in digital and paper formats. The paper format will be available at the town office for anyone who would like to read it. The digital version is available upon request. Mr. Keefe is finalizing some illustrations to go along with the report and will be sending those on shortly.

Mr. Keefe has done a fine job of evaluating the current and former conditions around the green. He has provided an overview of the sequence of development and recommendations that can be used to ensure that a new structure fits harmoniously with the others and relates properly to the green.

This study was funded by the Preservation Trust of VT, private donors, the Middletown Springs Historical Society, and Mr. Keefe. Thank you to all who contributed.

The Building Committee meets on the first Wednesday and third Thursday of each month. Meetings are open to the public.
