Building Committee News!

[DAVID MUNYAK](#)
EAST ST

Hello!

On Thursday, June 21, Building Committee members Tom Hurcomb and David Munyak traveled to Montpelier to attend a Brownfields Forum. The forum was hosted by Nobis Engineering of Concord, NH and was designed to present information about Brownfields grants and other funding opportunities. Officials from the Environmental Protection Agency and the Vermont Department of Environmental Conservation were on hand to make presentations and answer questions.

The forum was worthwhile. We learned some new things and were reassured that previous information we've received is correct. We're working with the VTDEC to determine the proper schedule and course of action for the Parker property.

More updates are on the way.

The regular Building Committee meeting scheduled for the first Wednesday in July has been moved to Tuesday, July 3 due to the holiday. Meetings are open to the public.
